EXPERIENCE

Maritime Exchange for the Delaware River and Bay / Philadelphia, PA

Web Development Intern / 05.16 – 08.16

- Conducted Content Audit, Stakeholder Interviews, User Research to analyze existing website and identify pain points and opportunities for a better design approach.
- Designed site map, feature plans, wireframes and visual mockup for the new website.
- Developed the new website using Bootstrap for the front-end and OctoberCMS for the back-end.

Sunbi Design Studio / Kathmandu, Nepal

UI Designer & Front End Developer / 07.14 – 07.15

- Oversaw the design process from wireframing to prototyping and coding full-fledged websites.
- Led a team of designers and developers on a few in house web applications to build UI components.
- Designed individual projects by pairing up with a developer.

Third Pole Connects / Kathmandu, Nepal

UI Developer / 08.13 – 05.14

- Worked with a team of designers and developers; designing and coding the web interfaces for an in house project.
- Delegated tasks to designers on the team according to their level of skill.
- Oversaw a few independent projects for other clients and it was mainly designing single pager websites and designing visuals for a Facebook marketing campaign for clients.
- Designed visuals in order to boost the company's online presence over various social media platforms.
